Issue 010:. Where will a buyer, seller rate the agent ?.

Fixed and Tested Y/N :

What was fixed ?:

Once the buying/selling process completes we have to rate the agent for his work. When an agent is rated by say 10 buyers/sellers the average rating must be displayed right next him just like a product rating. I am not seeing a place where the agent rating/review with comments can be submitted from the site.

Issue 011: Operation nudge is not available or present from admin side

Nudge happens when an agent is not yet paid after certain number of days. Admin prompts him when he logs in to pay and takes him to the payment page

If after few such nudges he will be stopped from logging in.

Issue 024: home page takes to much of cpu cycles

Fixed and Tested Y/N :
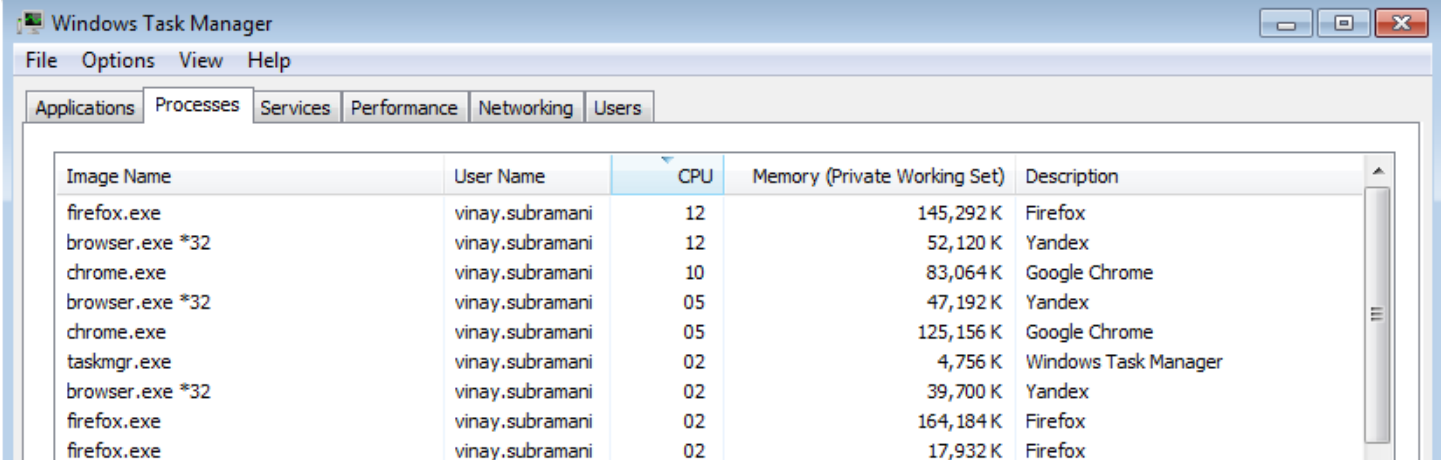

What was fixed ?:

Firefox, asfari, yandex, IE tested with all of them somehow the home page takes lot of cpu to load and run.
To test with 1 seller and 3 agents i need 4 browsers. The whole system slowed down once i loaded 92agents.
Need to fix this performance issue.

Is what is being loaded in home page is all gifs / what is causing it to slowdown ?.
